Forecast For Scotland
Issued by Met Office Aberdeen
at 0400 on Tuesday 26 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Heavy rain in Northwest. South and east Scotland becoming drier.

Today:
Rain edging eastwards this morning, continuing this afternoon from north Argyll up to the north of Scotland and Northern Isles, heaviest over northwest Highlands. Becoming drier and a little brighter this afternoon over south and east Scotland. Mild, quite windy.

Tonight:
Cloudy and mild with rain over the Northwest and Northern Isles moving southwards overnight. Rain will be heavy in the west and southwest. Drier, clearer weather following. to northern Scotland.

Wednesday:
Cloudy over southern Scotland with rain lingering for much of the day, persistent and heavy at times. Drier, brighter from Central Lowlands northwards with showers in Northwest. Mild and breezy.

Outlook for Thursday to Saturday:
Staying unsettled for the rest of the week and into the weekend. There will be showers each day and even spells of more persistent and heavier rain, especially in south.
